All Employment Growth Has Been Full-Time Jobs

Net change in employment, January 2010 to February 2016

Source: JEC Democratic staff calculations using data from the Bureau of Labor Statistics (updates next on April 1, 2016)

Note: Seasonally-adjusted data

Unemployment and Underemployment Rates Have Declined Significantly from Recession Peak

January 2006 to February 2016

Source: Bureau of Labor Statistics (updates next on April 1, 2016)

Notes: "Underemployment Rate (U-6)" includes those marginally attached to the labor force and those employed part time for economic reasons; seasonally-adjusted data

Declines in Short- and Long-Term Unemployment

Percent of the labor force unemployed by duration, January 2000 to February 2016

Source: JEC Democratic staff calculations using data from the Bureau of Labor Statistics (updates next on April 1, 2016)

Notes: Grey areas represent periods of recession as determined by the National Bureau of Economic Research; dashed lines represent the averages before the recent recession (Dec. 2001 to Dec. 2007); seasonally-adjusted data

Black vs. White Unemployment

Source: Bureau of Labor Statistics (updates next on April 1, 2016)

Notes: Grey areas represent periods of recession as determined by the National Bureau of Economic Research; gaps denote the smallest difference on record, largest difference since 1986 and current difference in black and white unemployment rates; seasonally-adjusted data

Hispanic Unemployment

January 2000 to February 2016

Source: Bureau of Labor Statistics (updates next on April 1, 2016)

Notes: Grey areas represent periods of recession as determined by the National Bureau of Economic Research; seasonally-adjusted data

Veterans' Unemployment Rates

12-month moving averages, January 2010 to February 2016

Source: JEC Democratic staff calculations using data from the Bureau of Labor Statistics (updates next on April 1, 2016)

Aging Trends Explain About Half of Decline in Labor Force Participation Rate

January 2008 to February 2016

Source: JEC Democratic staff calculations using data from the Bureau of Labor Statistics (updates next on April 1, 2016)

Note: The "Population-Adjusted Rate" calculation denotes what the "Actual Rate" would be without aging trends starting in the year 2008
