

# Private Sector Adds 144k Jobs in December

January 2008 to December 2016

# All Employment Growth Has Been Full-Time Jobs

Net change in employment, January 2010 to December 2016

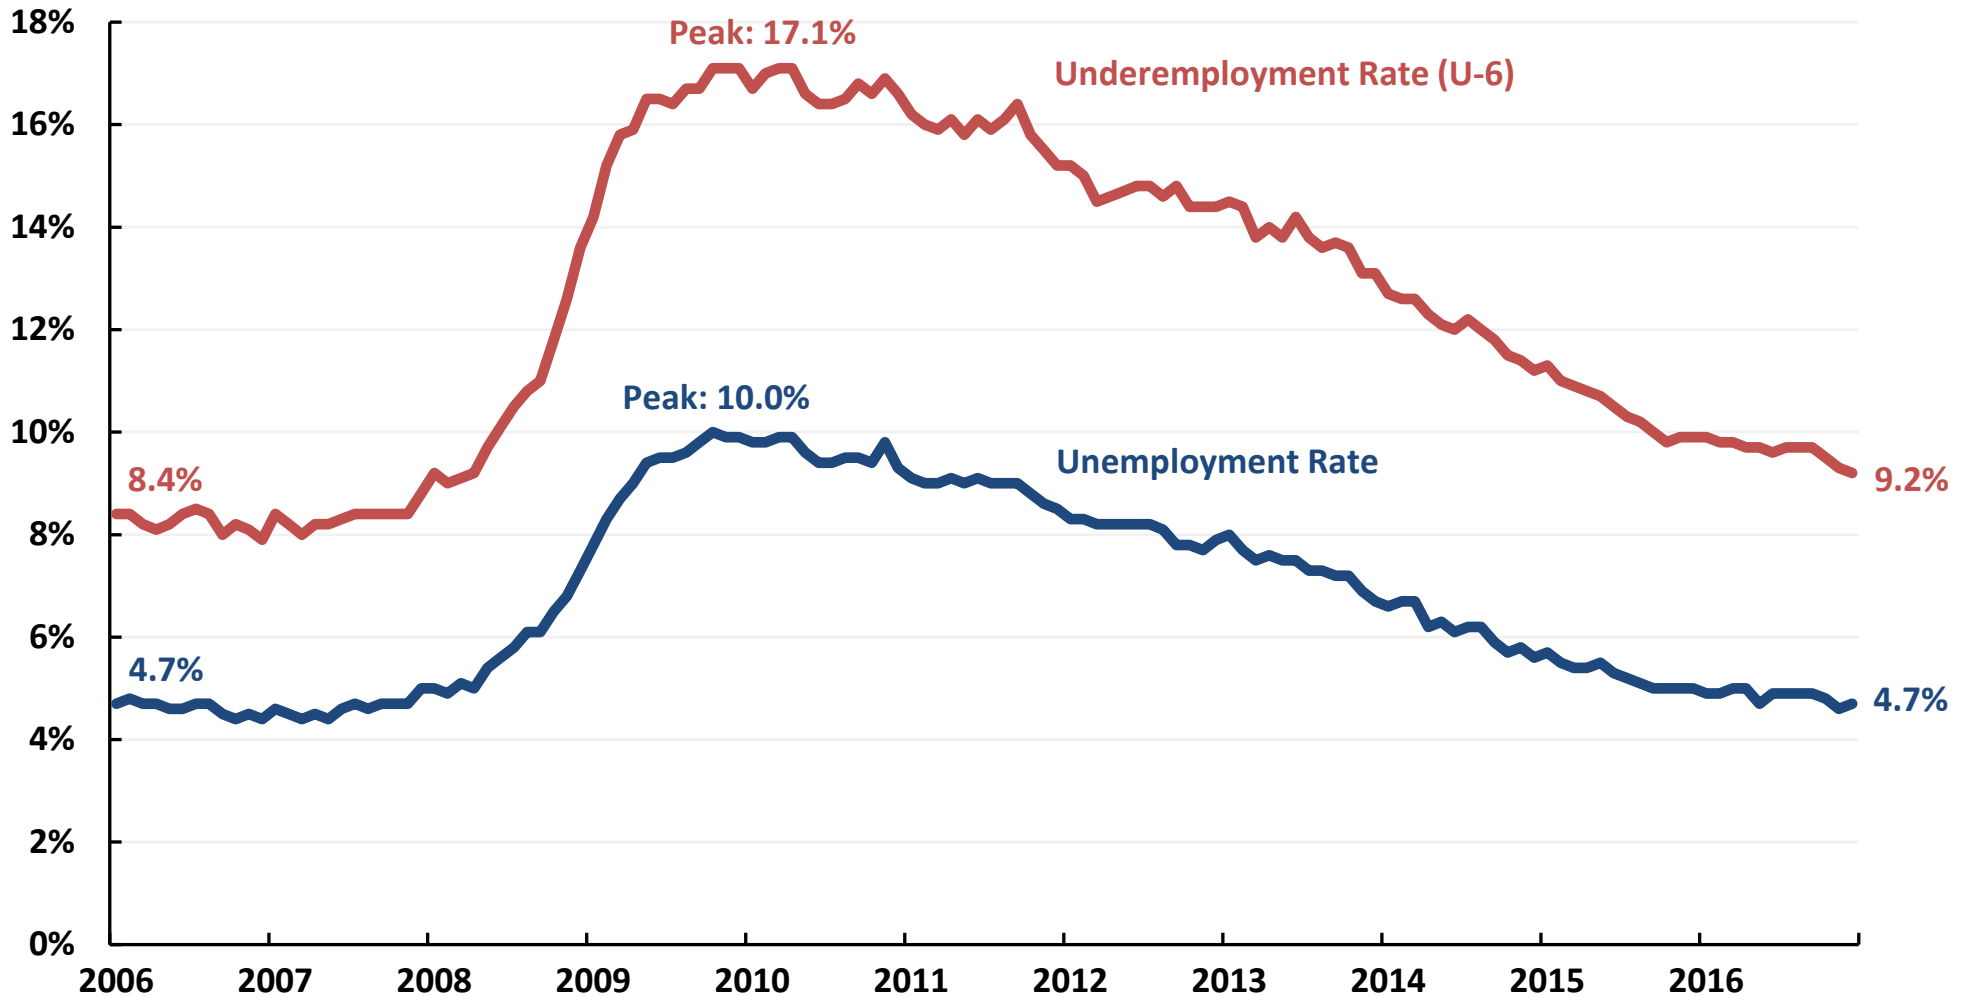

Source: JEC Democratic staff calculations using data from the Bureau of Labor Statistics (updates next on February 3, 2017)

Note: Seasonally-adjusted data

# Unemployment and Underemployment Rates Have Declined Significantly from Recession Peak

January 2006 to December 2016

Source: Bureau of Labor Statistics (updates next on February 3, 2017)

Notes: "Underemployment Rate (U-6)" includes those marginally attached to the labor force and those employed part time for economic reasons; seasonally-adjusted data

# Short- and Long-Term Unemployment

Percent of the labor force unemployed by duration, January 2000 to December 2016

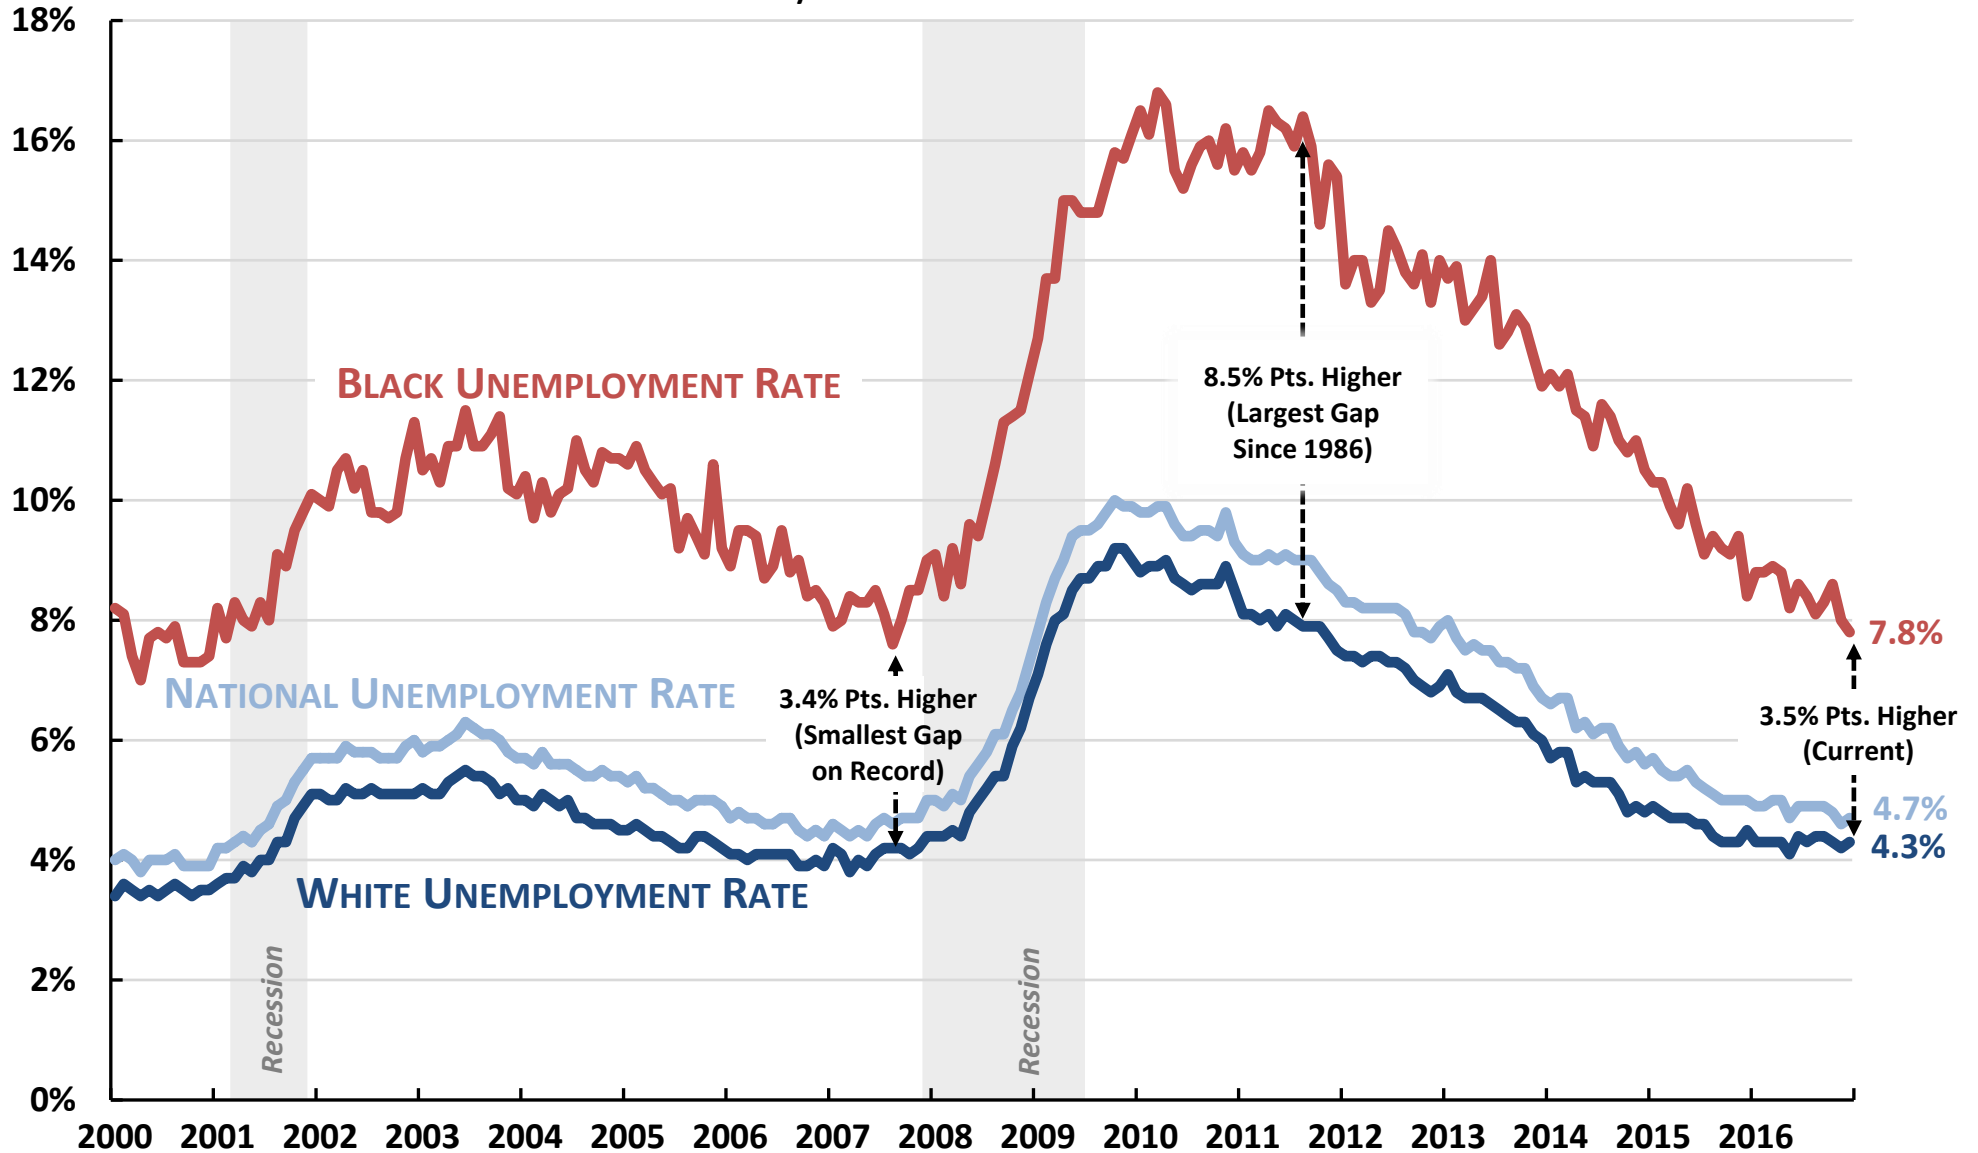

Source: JEC Democratic staff calculations using data from the Bureau of Labor Statistics (updates next on February 3, 2017)

Notes: Grey areas represent periods of recession as determined by the National Bureau of Economic Research; dashed lines represent the averages before the recent recession (Dec. 2001 to Dec. 2007); seasonally-adjusted data

# Black vs. White Unemployment

January 2000 to December 2016

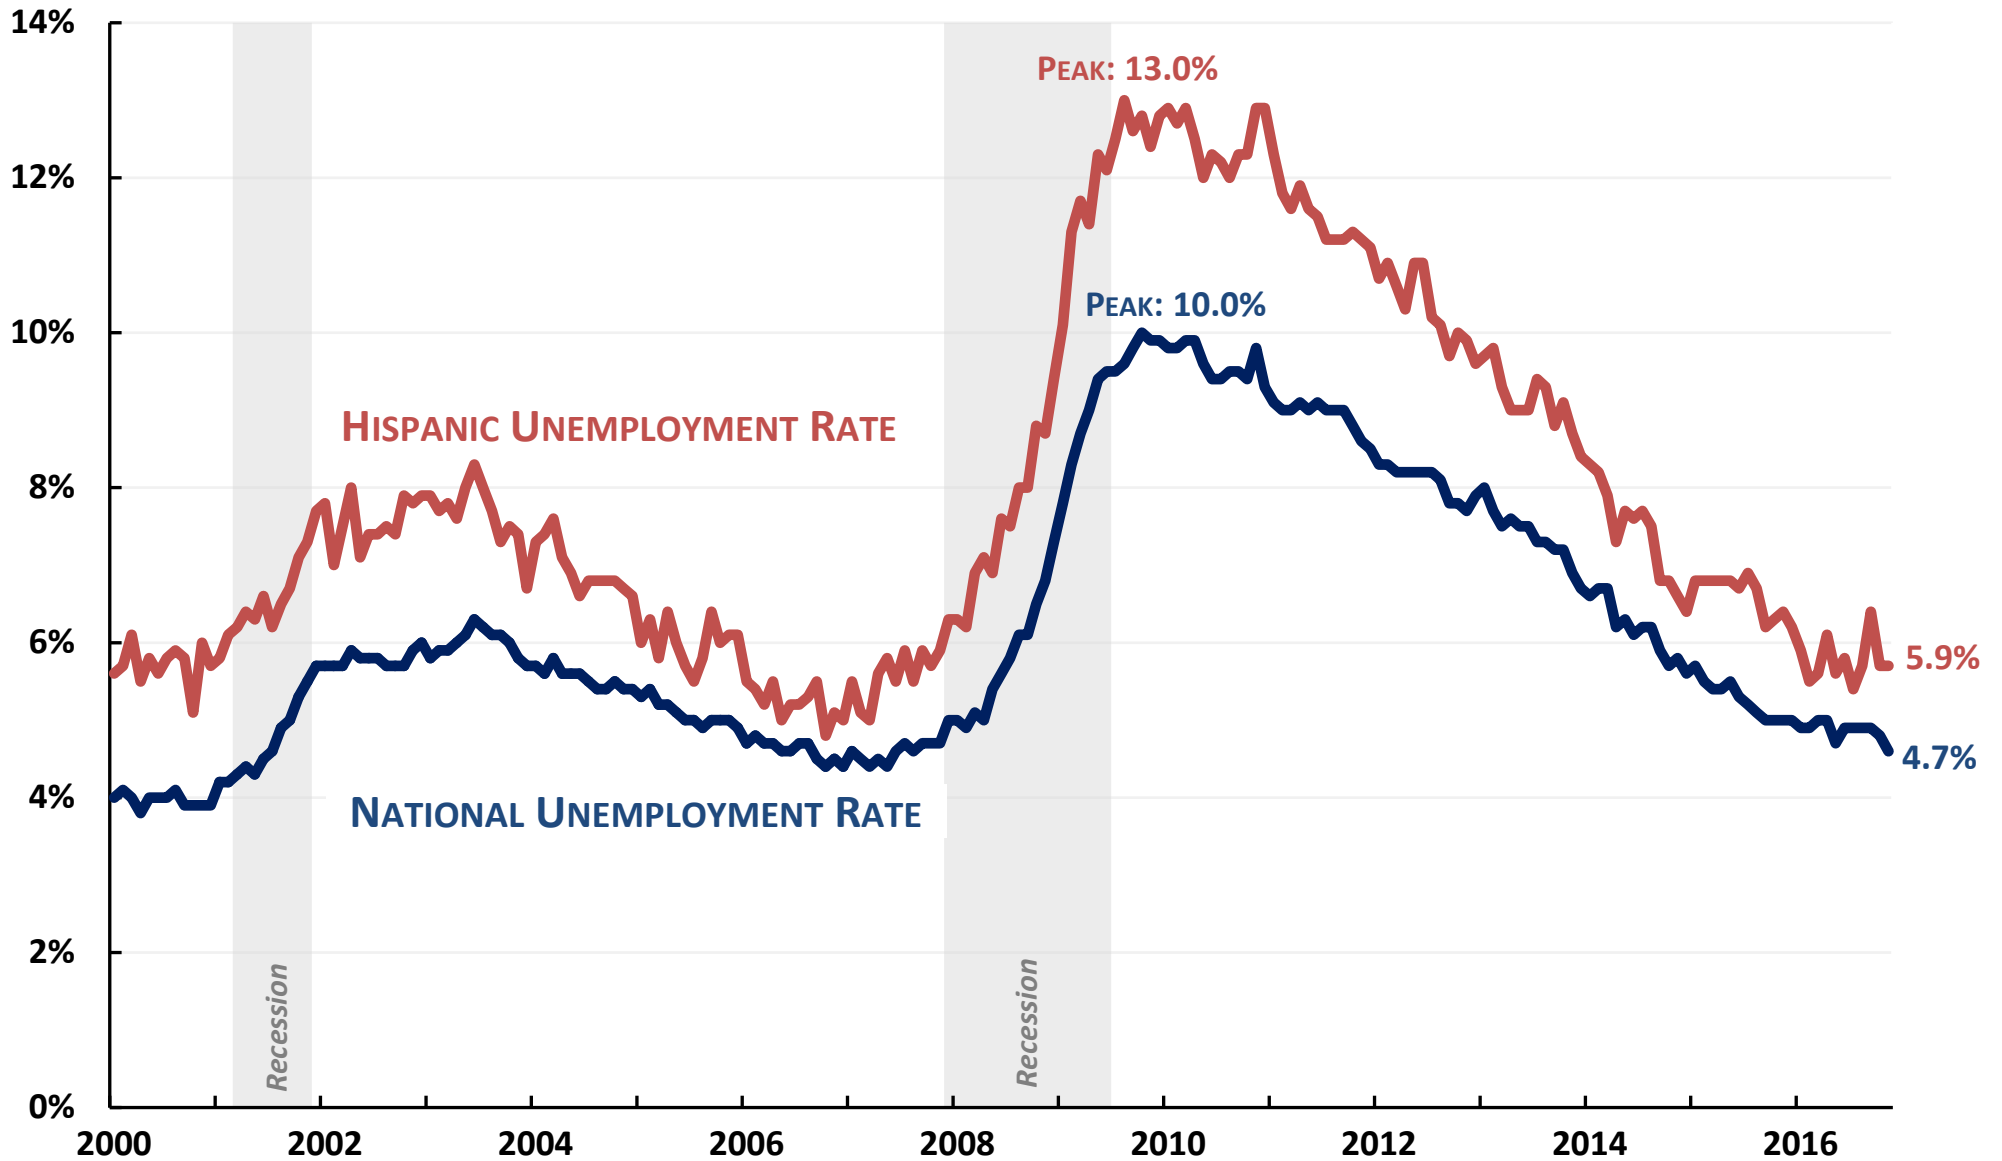

Source: Bureau of Labor Statistics (updates next on February 3, 2017)

Notes: Grey areas represent periods of recession as determined by the National Bureau of Economic Research; gaps denote the smallest difference on record, largest difference since 1986 and current difference in black and white unemployment rates; seasonally-adjusted data

# Hispanic Unemployment

January 2000 to December 2016

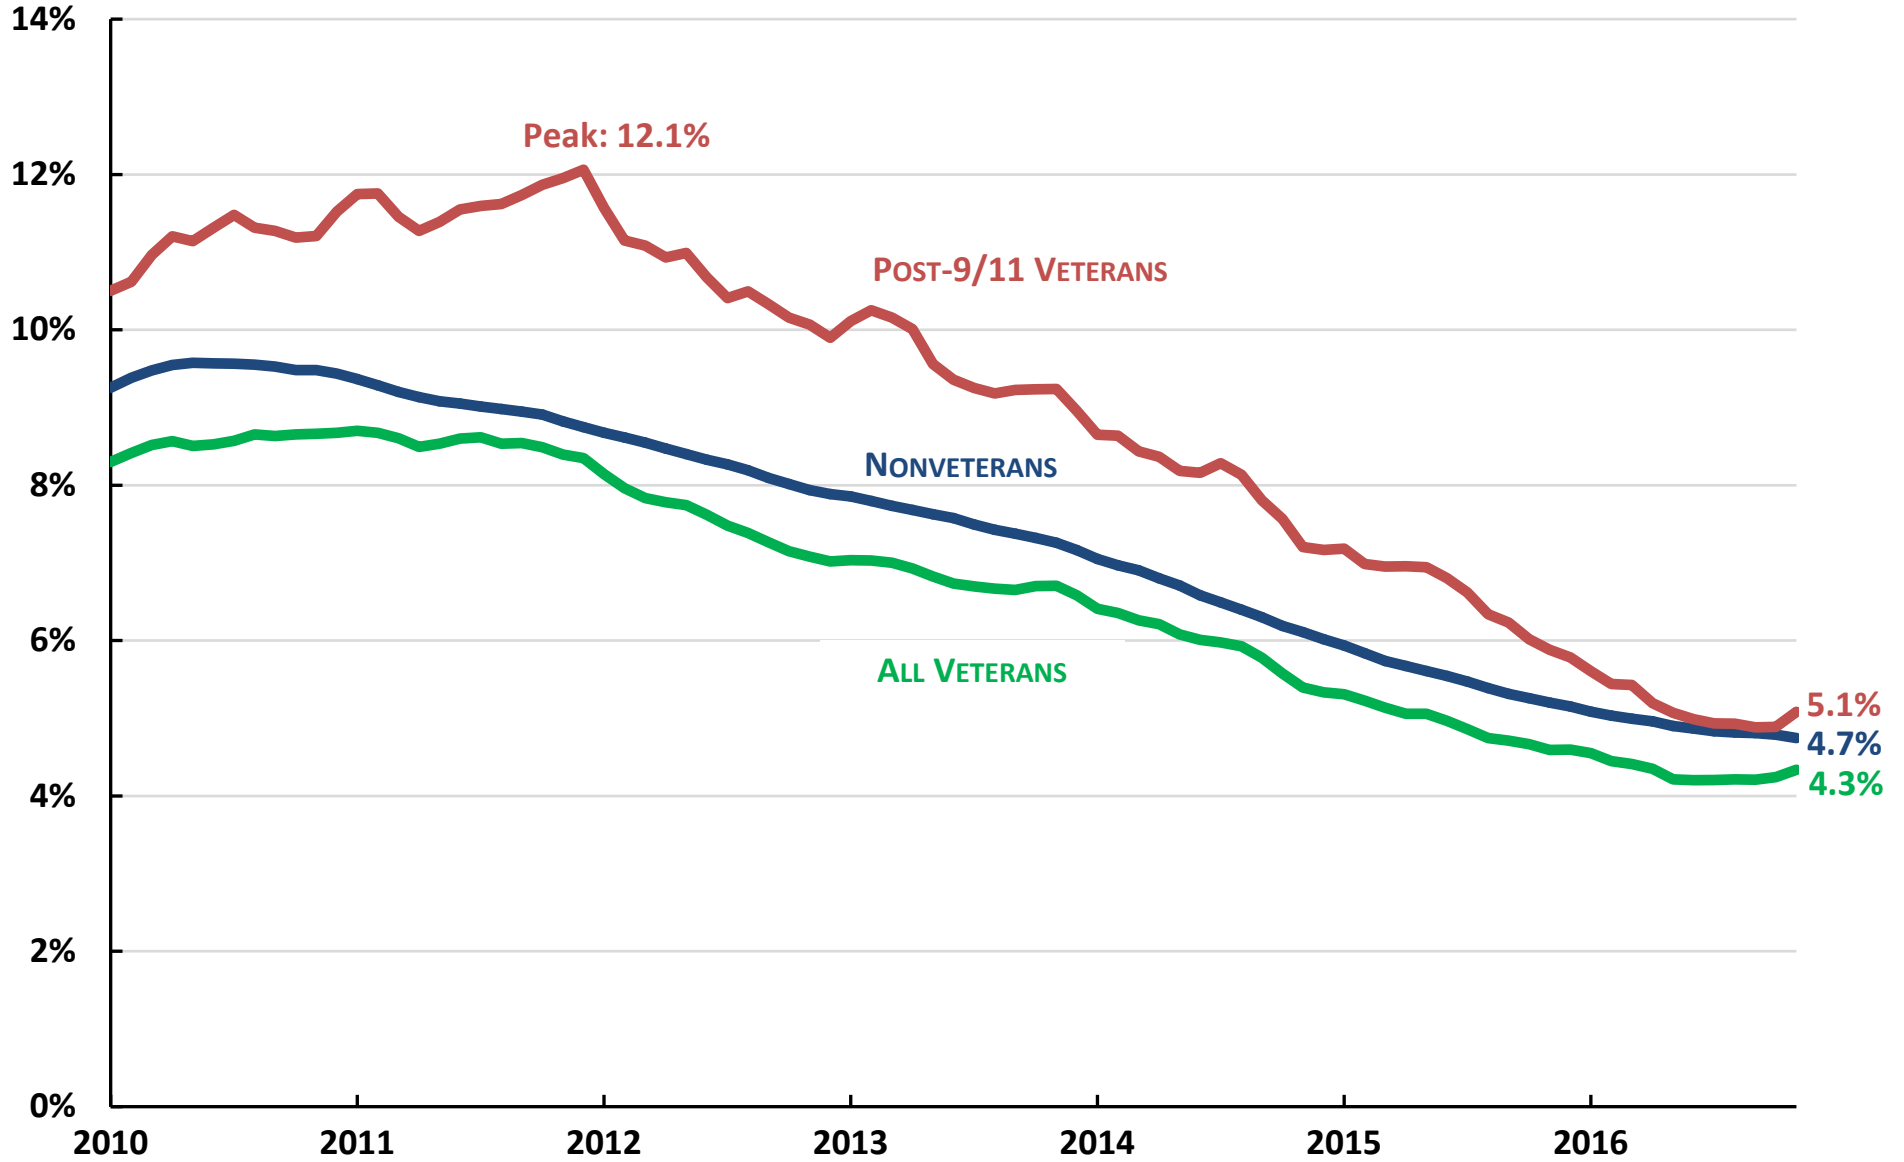

Source: Bureau of Labor Statistics (updates next on February 3, 2017)

Notes: Grey areas represent periods of recession as determined by the National Bureau of Economic Research; seasonally-adjusted data

# Veterans' Unemployment Rates

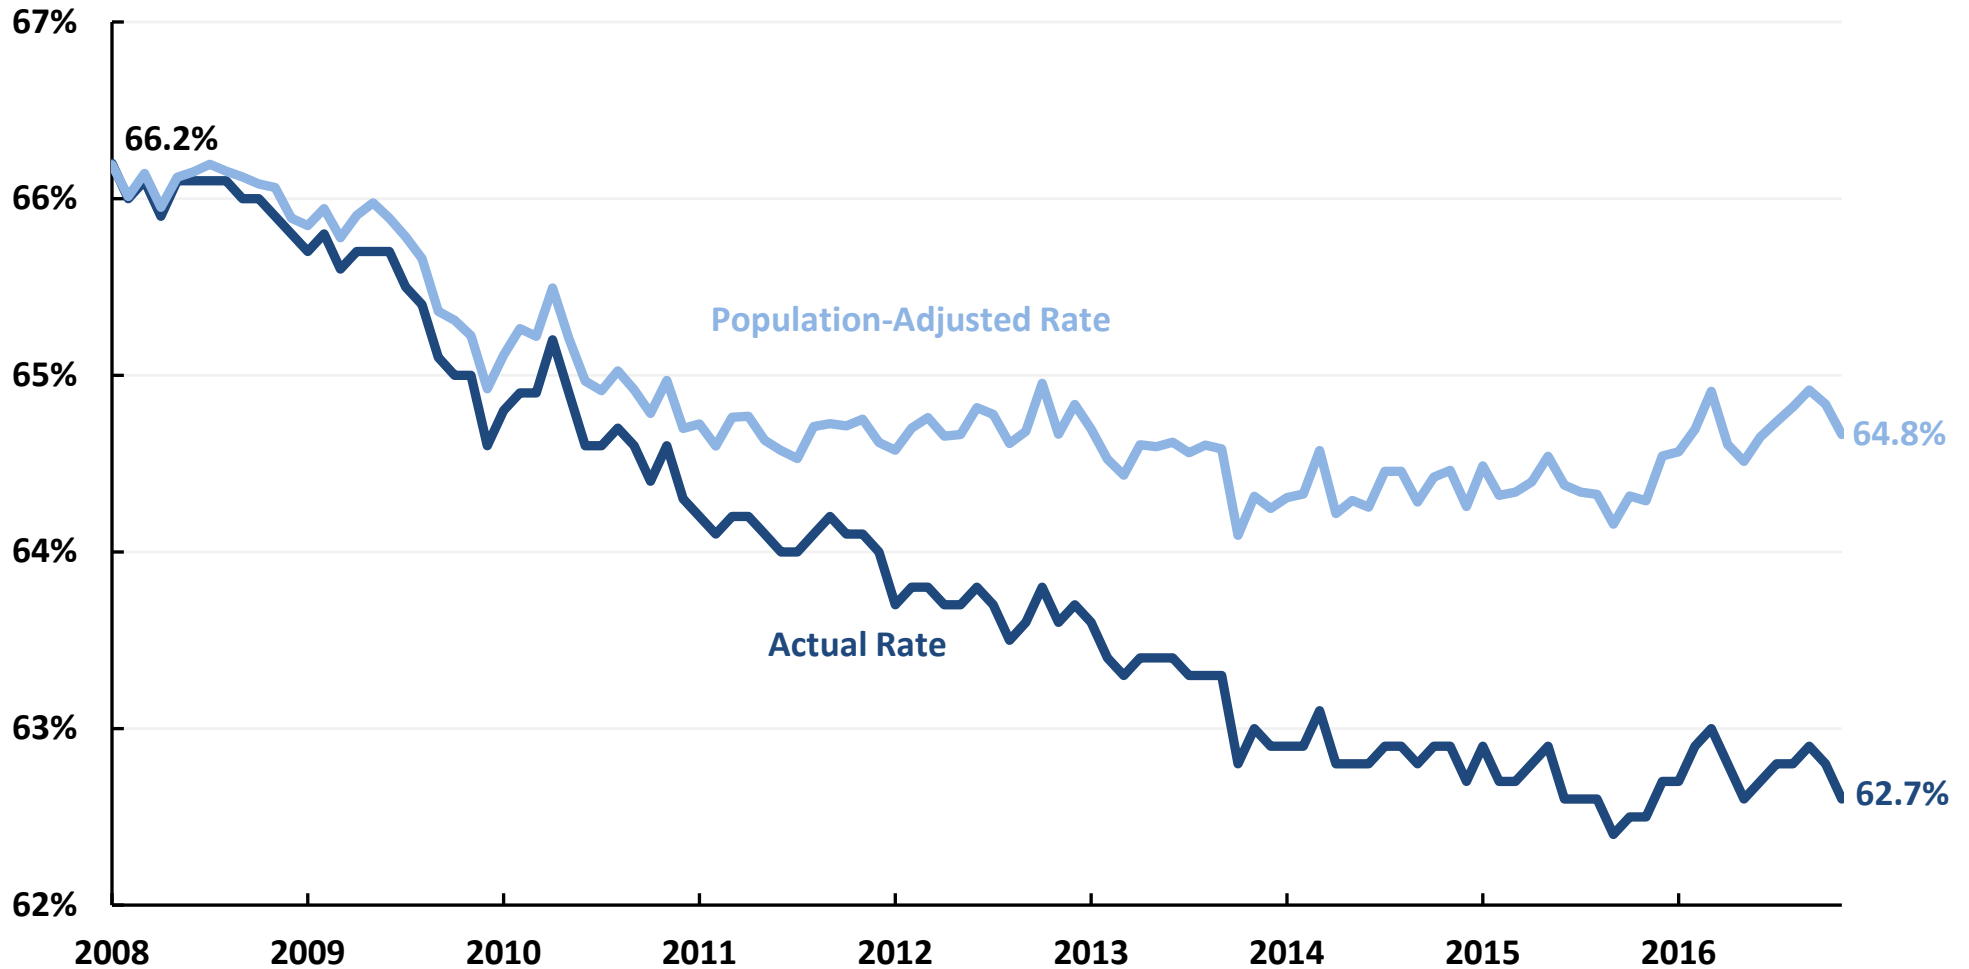

12-month moving averages, January 2010 to December 2016

Source: JEC Democratic staff calculations using data from the Bureau of Labor Statistics (updates next on February 3, 2017)

# Aging Trends Explain More Than Half of Decline in Labor Force Participation Rate

January 2008 to December 2016

Source: JEC Democratic staff calculations using data from the Bureau of Labor Statistics (updates next on February 3, 2017)

Note: The "Population-Adjusted Rate" calculation denotes what the "Actual Rate" would be without aging trends starting in the year 2008
