

The U.S. Economy by the Numbers – September 4, 2020

Job growth/loss

- Nonfarm jobs increased by **1.4 million** in August but even after these gains there are still **11.5 million** fewer jobs than in February.
- The number of nonfarm jobs was boosted by the hiring of **238K** temporary Census workers, otherwise only **1.1 million** jobs would have been added.
- Employment in food services and drinking places remains down by **2.5 million** and retail industry employment is **655K** lower than in February.

JOINT ECONOMIC COMMITTEE
CONGRESSMAN DON BEYER, VICE CHAIR

The unemployment rate

- BLS reports that the unemployment rate fell to **8.4%** in August, but it remains more than twice as high as the pre-pandemic low.
- The unemployment rate for Blacks was **13%**, almost double the **7.3%** rate for Whites.
- The unemployment rate for Hispanics was **10.5%** and it was **10.7%** for Asian workers.
- The unemployment rate for women fell to **8.4%**; however, this remains higher than the unemployment rate for men which is **8%**.

New unemployment claims

- DOL reported **833K** new regular unemployment claims for the week ending August 29 and **759K** new claims for Pandemic Unemployment Assistance. The number of claims filed continue to exceed the worst week of the Great Recession.

Gross Domestic Product

- Real GDP **decreased** at annualized rate of **31.7%** in Q2 2020, the worst decline in U.S. history.
- This reflected a sharp drop in personal consumption, including large declines in spending on healthcare, clothing and footwear and declines in investment.

Wages and income

- Median weekly earnings for full-time workers in the second quarter **rose 10.4%** from last year, **10%** higher with inflation taken into account.

Federal debt

- CBO forecasts a budget deficit of **\$3.3 trillion** in 2020, which is more than triple the shortfall in 2019.
- The deficit in 2021 is projected to be **8.6 percent of GDP**. The deficit as a share of GDP has been larger than that only twice between 1946 and 2019.

Inflation

- The CPI for all items **rose by over 1%** over the last 12 months.
- Core PCE, which excludes food and energy, **increased by 1.3%** over the past 12 months.
