¹ Data from the establishment survey. Includes all full- and part-time wage and salary workers in nonagricultural establishments who received pay for any part of the pay period that includes the 12th of the month. Excludes proprietors, self-employed persons, unpaid family workers, and private household workers. Data from the household survey shown on p. 11 include those workers and also count persons as employed when they are not at work because of industrial disputes, bad weather, etc., even if they are not paid for the time off. In the series shown here, persons who work at more than one job are counted each time they appear on a payroll, in contrast to the series shown on p. 11 where persons are counted only once—as employed, unemployed, or not in the labor force. See *Employment and Earnings* for details.

² Includes natural resources and mining, not shown separately.

³ Includes wholesale trade, transportation and warehousing, and utilities, not shown separately.

⁴ Other services and information.

Note.—Data classified by industry based on the 2002 North American Industry Classification System (NAICS). For details see *Employment and Earnings*, June 2003.

¹ Derived; seasonally adjusted monthly data for 2-4 housing units started are no longer published.

² Seasonally adjusted.

³ Revised series. Quarterly data entered in last month of quarter.

NOTE.—Units authorized are for 19,000 places.

Beginning 1999, housing starts, completions, and sales are not directly comparable with earlier data due to new estimation methods.

Seasonally adjusted data beginning 2002 for housing units authorized, started, and completed and for houses sold reflect annual revisions. Unadjusted data for housing units authorized revised for 2003.
